Experience

Accounting Intern – Meritus Industries

May 2020 - August 2020

- Actively participated in discussions to plan the final transition from a C corporation to an S corporation, including talks about how to reduce notes receivable through equity accounts and the tax implications of that transaction
- Assisted in the closing of the 2019 books
- Handled day-to-day items such as payroll, invoicing, tracking of expenses, accounts receivable, and accounts payable

Accounting Intern - Paysafe Group

May 2018 - August 2018

- Oversaw the strategic management of departmental data
- Consolidated over twenty sheets of data into one dynamic chart used to analyze revenue and gross margin streams, improving the efficiency of my manager's P&L analysis
- Assisted managers with financial planning using data from my dynamic excel spreadsheet
- Organized incoming data from orders into spreadsheets

Finance Intern - Amegy Bank

August 2013 - May 2014

- Performed due diligence on Amegy's investments, assessed the quality of client portfolios
- Produced matrices to compile data and scanned for errors in the spreadsheet programming
- Interviewed heads of Commercial Lending, Private Banking, and Commodities to learn about their operations and objectives

Education Highlights

Advanced Financial Statement Analysis – Professor Julian Yeo

- Learned how to tie a company's financial statements to their stock price through key drivers such as residual income, implicit growth, and required rate of return (return on invested capital)

Equity Valuation – Professor Aswath Damodaran

- Built models to forecast revenue and earnings of various companies, performing both intrinsic analysis through DCF valuation and market pricing through multiples/regressions

Managerial Accounting – Professor Julian Yeo

- Practiced in depth cost analysis for both manufacturing and service companies, defining profits as a function of management quality and macroeconomic factors
